THE COMPANY Argos Plastics Private Limited is a SSI unit engaged in the manufacture of Injection moulded thermoplastics products having 30 years of successful operation in the field. The company is located at Kannadi, Palakkad, Kerala supplying plastic products of high quality to very reputed companies with quality for the past many years.

The company is managed by highly qualified and well experienced professional.

As far as technical skill is concerned, the company has a team of well qualified and experienced personnel capable of tackling all problems in production. Quality and cost are the prime consideration and in order to achieve the best quality of products, the machinery and equipments are kept in best operating condition at all times. The existing machineries can mould up to 1570 gms (Styrene) weight in the plant. All moulding machines are well supported by accessories. The company has captive power generation facility.

R &D Team

We have a team of engineers capable of handling complicated production problems. They are always on the lookout for improving the product and process by introducing the latest technology in the field.

Objective

To produce high quality thermoplastic components at optimum cost for industries and consumers, this leads to mutual growth and prosperity.

Vision

Develop an industrial facility for the design and manufacture of plastic components, assemblies and products as required by industrial houses and general market.

Product range

Injection moulded parts for electrical and electro mechanical products and also consumer products. Examples are electronic voltage stabilizer cabinets, water heater cabinets, bathroom fittings such as flush tank, toilet seat cover, water trap etc. Also decorative items such as jewel boxes.

Facilities

1. Plastic injection moulding machines from 60 ton to 350 ton
2. Printing facilities like Pad printing, Heat transfer, Screen printing, spray painting etc.
